

## Security and Privacy Policies

Biomuber Inc will meet all applicable requirements in properly protecting the information, including:

O Laws

O Regulations

O Industry standards

O Contractual commitments

The protections we apply to information assets will be in proportion to the value and sensitivity of the information, and will balance the sensitivity of the information against

O The cost of controls

O The impact of the controls on the effectiveness of business operations

O The risks of disclosure, modification, destruction, or unauthorized use of the information

We will protect all types of sensitive information, including but not limited to

O Medical

O Business transaction and planning

O Personal information, both of our employees and of our customers

Biomuber Inc will ensure that these controls are accepted by all employees, vendors, service providers, representatives and associates of our company who may have access to our information. This includes ensuring that all personnel at all levels are aware of, and are held accountable for safeguarding information assets.

Biomuber Inc will ensure that access to information is controlled, and based upon, job function and need-to-know criteria.

Biomuber Inc will maintain proper business continuity and security procedures, including information systems, networks, resources, and business processes.

Biomuber Inc will report any suspected or actual breach of these policies, and will cooperate with investigative agencies.

Biomuber Inc will comply with other, related policies, including the Company's privacy policies.

We hold our employees, vendors, contractors, suppliers, and trading partners to meet this same set of policies.
